## TOOLS I REACH FOR

TypeScript

Next.js

Node.js

Go

PostgreSQL

Docker

Tailwind CSS

## ABOUT

I'm a software engineer focused on backend systems, developer tooling, and polished user interfaces. I care about boring reliability, fast feedback loops, and software that respects its user.

## WHERE I'VE WORKED

### Software Development Engineer

[IBCh RAS](#) · Moscow, Russia

2024 – Present

Maintained and optimized network infrastructure and server performance to ensure high availability and reliability.

### Technician

[Luzhniki](#) · Moscow, Russia

2021 – 2023

Maintained and optimized network infrastructure, ensuring high availability and performance.

### Full Stack Development

[Freelance](#) · Remote

2019 – 2021

Developed and deployed scalable web applications.
